PROFILE

Technically oriented Software Engineering student at FEL CTU with a strong foundation in electrical engineering. During my practice so far, I have demonstrated solid analytical thinking, responsibility, and the ability to solve problems under pressure. I actively work with modern development environments (VS Code, IntelliJ IDEA).

WORK EXPERIENCE

Electrical Installation Technician 2022 - 2024

HUKY s.r.o. Elektro

- Predominantly routine electrical installation work, requiring knowledge of specific electrical installations

Technician 2022 - present

House Of Music Pardubice (Dům hudby Pardubice)

- Operation of lighting and sound consoles
- High level of responsibility for emerging issues and the need to solve problems quickly and effectively

CERTIFICATIONS & LICENSES

Certificates IBM SkillsBuild

- Project Management Fundamentals
- Prompt engineering for everyone

Licenses

- Driving License Category B
- Professional competence to perform activities in electrical engineering according to NV 194/2022 Coll., § 6 Electrical Technician (for independent activity)

EDUCATION

Software Engineering and Technologies 2025 - present (1. year)

Faculty of Electrical Engineering | CTU in Prague

Electrical Engineering - Industrial Automation 2021 - 2025

SPŠE a VOŠ Pardubice
